

Bedroom closet

Intended functions:

- Hanging clothing
- Storage

Alternative functions:

- Shoe storage - over the door shoe rack

Bedroom closet

Procedures:

- °One must find the door nob - hidden behind the shoe rack
- °Open the door and the light inside the closet will turn on
- °One can select from the clothing on the eye level rack or find a space to squeeze in an article of clothing
- °The same can be done for the higher rack but a stepping stool - or our ottoman - is needed to reach

Bedroom closet

Qualities of the space:

- Tight, claustrophobic
- Clothing organized by colour
- Automatic light as door opens
- Top bar far out of reach
